ABOUT ME

Results-oriented **Senior Software Developer** with over 5 years of experience in the software development lifecycle. Expertise in building high-performance Android applications using **Java, Kotlin, and Android Studio**. Currently pivoting into **Python Django** Development through intensive advanced training to leverage full-stack capabilities. Proven track record of managing multiple projects simultaneously, leading technical reviews, and implementing complex API integrations. Highly enthusiastic about re-entering the tech space with a refreshed skill set in modern backend technologies.

TECHNICAL SKILLS

- **Full-Stack Development Skills:** Python and Django (actively focused)
- **Backend & API Engineering:**: Python, Django(actively focused), RESTful APIs, JSON.
- **Database Management:** SQLite, SQL.
- **Libraries & Tools:** Retrofit, OkHttp3, GreenDAO (ORM), ButterKnife, Picasso, EventBus.
- **Mobile Development:** Android SDK , Kotlin, Java, Gradle, Android Studio.
- **Version Control & DevOps**: Git (Bitbucket), SDLC Methodologies.
- HTML, CSS, JavaScript, Bootstrap

SOFT SKILLS

- Leadership
- Collaboration
- Communication
- Continuous Learning & Adaptability
- Teamwork
- Innovation
- Cross-functional
- Problem-Solving & Critical Thinking

EDUCATION

2021 **Bachelor of computer application**
Reg.No: 172M21001P00617 / Annamalai University

2015 **Diploma in computer science and engineering**
Membership No: 219875 / The Institution Of Electronics And Telecommunication Engineers

EXPERIENCE

2018 - 2019
Gooseberry IT Solutions
Ernakulam, Kerala

Senior Developer

- Architected and optimized Android applications focusing on user experience and performance.
- Managed end-to-end SDLC for client projects, ensuring high-quality code delivery and debugging.
- Collaborated with design teams to translate UI/UX wireframes into functional, high-performance code.

2014 - 2018
Aitrich Technologies
Thrissur,Kerala

Senior Developer

- Developed a diverse portfolio of Android applications utilizing Android Studio and Eclipse.
- Implemented complex third-party libraries (Retrofit, GreenDAO, etc.) to enhance app functionality.
- Managed app publishing and maintenance on the Google Play Store.
- Utilized Git/Bitbucket for robust version control and team collaboration.
- Executed rigorous code reviews and debugging sessions to maintain a 99% crash-free rate for production apps

KEY PROJECT

Trip Weaver – Group Travel Management Platform

Developed a full-stack travel management and coordination platform using Python Django that enables trip organizers to plan, manage, and monitor group travel operations. Implemented a dynamic itinerary engine with day-wise scheduling, geolocation-based destinations, map integration, real-time announcements, participant management, expense tracking, payment processing, invoice generation, shared media galleries, and collaborative travel playlists. The system provides complete financial transparency through revenue, reimbursement, and expense management workflows, along with Excel/PDF reporting capabilities.

Key Responsibilities & Achievements:

- Designed and developed role-based modules for Administrators, Coordinators, and Members.
- Built dynamic itinerary planning with timeline views, trip life-cycle management, and location tracking.
- Implemented financial management including expense approvals, reimbursements, payment history, and audit tracking.
- Developed Excel and PDF export functionality using OpenPyXL and document generation libraries.
- Created real-time communication features including emergency broadcasts and trip notifications.
- Integrated profile management, emergency contact handling, and safety-focused travel coordination.
- Implemented payment workflows, invoice generation, and transaction tracking.
- Developed responsive web interfaces using HTML, CSS, Bootstrap, and Django templates.

Technologies Used: Python, Django 6.x, SQLite, HTML, CSS, JavaScript, Bootstrap, OpenPyXL, Gmail SMTP, Git, REST APIs.

CERTIFICATIONS & TRAINING

- **Advanced Python Django Full-Stack Development** – Techmindz Institute, Kochi (In Progress)
- **Diploma in Android App Development** – Aitrich Technologies, Thrissur
